

# NARRARE

Narrare brings together researchers in literary studies, social sciences, game studies, media and journalism, history, philosophy, education, psychology, health sciences, political science and administrative studies. Our aim is to develop consistent narrative-theoretical methodology for all disciplines working with narrative. Narrare hosts a number of inter- and transdisciplinary projects and works actively with other leading centres for narrative studies in Europe and the United States.

## Centre for Interdisciplinary Narrative Studies

[research.tuni.fi/narrare](https://research.tuni.fi/narrare)

**our main topics**  
interdisciplinary narrative theory and analysis | convention and invention in narratives | narrative agency and positioning | narrative, well-being, and dangers of storytelling

**Mari Hatavara**  
Director

**Matti Hyvärinen**  
Vice Director
