

MINI-SYMPOSIUM

THE EMERGENCE OF INTERDISCIPLINARY PROJECTS

Presentation of the transversal projects supported by the Labex Who Am I?. These projects are interdisciplinary and collaborative among the Labex partners.

Wednesday, July 7, 2021 - 2 pm to 5:30 pm

ENSA auditorium - limited seating

3/15 quai Panhard et Levassor, 75013 Paris

Free but mandatory registration:

<https://sondage.app.u-paris.fr/444163>

Université de Paris

PROGRAM

2:00 PM

Introduction

2:15 PM

Adaptation of intestinal stem cells to injury -
Delphine Delacour and Nicolas Minc (IJM)

3:00 PM

Neural organoids to investigate interplays
between mechanical and transcriptional cues
underpinning normal and pathological
neurodevelopment - **Valérie Doye, Kamal
Bouhali, and Vanessa Ribes (IJM); Claire
Francastel, and Valérie Lallemand-Mezger
(EDC); Jérôme Boutinaud (PCPP)**

3:45 PM

Coffee break

4:15 PM

DECODERS: decoding locus-specific molecular
interaction networks - **Benoit Palancade and
Maxim Greenberg (IJM); Ekaterina Boyarchuk
(EDC)**

4:45 PM

WISCI: Who am I Single Cell Initiative - **Pierre-
Antoine Defossez (EDC), Franck Letourneur (IC)
Nikos Konstantinides (IJM) and Caroline
Angleraux (IHPST)**

5:15 PM

Conclusion
